

I would like the current law in NJ to stay the same. Recieving the sales phone calls are very annoying. From day one I have never purchased anything from these companies and I never plan to. If I would like to purchase an item or service I can go online or to the store. These companies I think make it a point to call at the worst times of day. ie Early (very early) in the morning or at dinner time. Please keep these laws the way they are. DO NOT CALL ME!!! I'll call you!
